SUMMARY

Hello! I'm Shubham Kumar Yadav, and I'm Android Developer and Website Designer. I work with various programming languages, including PHP, JavaScript, Kotlin, VB.NET, and Python. On the back end, I have experience with DBMS and Firebase, ensuring that the applications I develop are robust, scalable, and secure. For the front end, I use HTML, CSS, Bootstrap 5, Figma, and XML to create visually appealing, responsive, and user-friendly websites. Additionally, I have learned to create chatbots through IBM Skill Build.

EDUCATION

Veer Narmada South Gujarat University

October 2020 - June 2023

BCA (Bachelor of Computer Applications). - 7.61

Gautam Buddha University, Greater Noida

July 2023 - Present

MCA AI (Master of computer Applications) - 8.5 (current)

SKILLS

- **Programming Languages:** C, Python, JavaScript
- **Web Development:** HTML, CSS, JavaScript, Bootstrap 5, AJAX, PHP, Node.js, Angular
- **Android Development:** Kotlin, Android Studio, Firebase
- **Database Management:** MySQL, SQLite, MongoDB, Firebase
- **Tools & Frameworks:** AWS (EC2, VPC), IBM Skills (Chatbot), XAMPP Control Panel, Microsoft Excel
- **Additional Skills:** Figma, VB.NET (Visual Basic.NET), GitHub

PROJECT

Portfolio: [🔗](#)

I developed a responsive portfolio website using HTML, CSS, Bootstrap, and JavaScript, showcasing my 15 projects, skills, and personal information with an intuitive, user-friendly interface.

Chatting Android Applications: [🔗](#)

Developed a feature-rich chat application using Android Studio with Kotlin, integrated with Firebase for real-time database management and PHP for backend processing. The app also incorporates HTML, CSS, Bootstrap, and JavaScript, with UI/UX designs created in Figma

Hostel Management System: [🔗](#)

Created a VB.NET application for student registration, room allocation, fee management, and report generation, improving hostel operations.

Online Food Delivery (FoodHut): [🔗](#)

Developed 'FoodHut,' an online food delivery platform using HTML, CSS, JavaScript, Bootstrap, and PHP, integrated with an IBM Skills-built chatbot for customer interaction. Utilized MySQL (XAMPP) for backend database management, ensuring efficient order processing and real-time data storage.
