OBJECT

Hello! I'm Shubham Kumar Yadav, an Android Developer and Website Designer. I work with various programming languages, including PHP, JavaScript, Kotlin, VB.NET, and Python. On the back end, I have experience with DBMS and Firebase, ensuring that the applications I develop are robust, scalable, and secure. For the front end, I use HTML, CSS, Bootstrap 5, Figma, and XML to create visually appealing, responsive, and user-friendly websites. Additionally, I have learned to create chatbots through IBM Skill Build.

EDUCATION

- **BCA (Bachelor of Computer Applications).**
Rajju Shroff ROFEL Institute of Management Studies, Vapi. (Veer Narmada South Gujarat University)
3rd Year SGPA: **7.61**

2nd year

Gautam Buddha University (GBU) Greater Noida Uttar Pradesh
MCA AI (Master of computer Applications)
Pursuing.

PROGRAMMING LANGUAGE

- HTML, CSS, Bootstrap, JavaScript, AJAX.
- PHP (Hypertext Preprocessor).
- Structure query language (SQL).
- Android studio.
- Kotlin.
- Python.
- Figma.
- VB.net (Visual Basic.NET).

SKILLS

- Web Development.
- Front-end Designer.
- Android Developer.
- VB.Net.

PROJECTS

- **Chatting Website:**
Developed a responsive real-time chatting platform using PHP, HTML, CSS, Bootstrap, JavaScript, and MySQL (XAMPP), featuring secure user authentication, real-time messaging, and efficient database management for storing user data and chat history.
- **Hostel Management System:**
Created a VB.NET application for student registration, room allocation, fee management, and report generation, improving hostel operations.
- **Food Chatbot:**
Developed a simple static chatbot for restaurants using IBM Skill Build. The chatbot assists users with menu inquiries and reservations, integrated into a basic, user-friendly static website.
- **Chatting Android Applications:**
Developed a feature-rich chatting application using Android Studio with Kotlin, integrated with Firebase for real-time database management and PHP for backend processing. The application incorporates HTML, CSS, Bootstrap, and JavaScript for additional functionality, with UI/UX designs created in Figma.
- **Portfolio:**
Created a responsive and visually appealing portfolio website using HTML, CSS, Bootstrap, and JavaScript. The website showcases projects, skills, and personal information with an intuitive and user-friendly interface.
- **Online Food Delivery (FoodHut):**
Developed an online food delivery platform "FoodHut" using HTML, CSS, JavaScript, Bootstrap, and PHP. Integrated a chatbot developed with IBM Skill Build for customer interaction. Utilized MySQL (XAMPP) for backend database management, enabling efficient order processing and real-time data storage.
