Shubham Kumar Yadav

Hello, I am Shubham Kumar Yadav, a passionate Android Developer and Web Developer with a strong foundation in programming languages such as PHP, JavaScript, Kotlin, VB.NET, Python, and C. I have hands-on experience with backend technologies including DBMS, Firebase, and Spring Boot, and I am committed to building robust, scalable, and secure applications. On the frontend, I am proficient in HTML, CSS, Bootstrap 5, React.js, Angular, Figma, and XML, creating responsive and user-friendly websites. Additionally, I have explored chatbot development through IBM Skill Build and familiar with Postman for API testing and development.

WORK EXPERIENCE

Gautam Buddha University (GBU)

Internship   Mar 2024 - June 2024

Admission Cell:
- Gained hands-on experience in assisting with student admissions and related tasks.
- Worked closely with the admissions team to streamline processes and improve efficiency.
- Contributed to various administrative tasks and data management.
- Designed and implemented a Bonafide certificate structure using HTML, Bootstrap, and PHP for online accessibility.

EDUCATION

Veer Narmada South Gujarat University

BCA (Bachelor of Computer Applications). - 7.61   October 2020 - June 2023

Gautam Buddha University, Greater Noida

MCA AI (Master of computer Applications) - 8.5   July 2023 - Present

SKILLS

- **Programming Languages**: C, Python, JavaScript.
- **Web Development**: HTML, CSS, JavaScript, Bootstrap 5, PHP, React.js, Angular, Node.js.
- **Android Development**: Kotlin, Android Studio, Firebase.
- **Database Management**: MySQL, SQLite, MongoDB, Firebase and Spring Boot.
- **Tools & Frameworks**:AWS (Amazon Web Services), IBM Skills (Chatbot), XAMPP Control Panel, Microsoft Excel and POSTMAN API.
- **Additional Skills**: Figma, VB.NET (Visual Basic.NET), GitHub.

PROJECT

Portfolio: ⬀

I Developed a responsive portfolio website using HTML, CSS, Bootstrap, and JavaScript and showcasing my 15 projects, skills, and personal information with an intuitive, user-friendly interface. You can check out my 15 projects on my GitHub account: https://github.com/coshubham

Chatting Android Applications: ⬀

Developed a feature-rich chat application using Android Studio with Kotlin, integrated with Firebase for real-time database management and PHP for backend processing. The app also incorporates HTML, CSS, Bootstrap, and JavaScript, with UI/UX designs created in Figma

Hostel Management System: ⬀

Created a VB.NET application for student registration, room allocation, fee management, and report generation, improving hostel operations.

Online Food Delivery (FoodHut): ⬀

Developed 'FoodHut,' an online food delivery platform using HTML, CSS, JavaScript, Bootstrap, and PHP, integrated with an IBM Skills-built chatbot. Utilized MySQL for backend database management, ensuring efficient order processing and real-time data storage.
